WELCOME!

ADAM SWEENEY

CS 211

A BIT ABOUT ME

- BS in Mechanical Engineering from Washington State University
- MS in Computer Science from Wichita State University
  - Worked as a GEEKS tutor
- Software Engineer at NetApp
  - Member of Coding Standards Committee
- Other interests include racquetball, movies, games (board and video)
  - I have not time for this these days
- Guilty pleasure song: Never Really Over by Katy Perry

AGENDA

- Syllabus Review

- Notes on Lab

- Getting lecture notes and code

- Setting up your own environment

- Knowledge Probe

SYLLABUS REVIEW

GETTING LECTURE NOTES AND CODE

GIT

- Lecture notes will exist at https://gitlab.com/sweenish/cs211
- The easiest way to acquire the notes is by using git
- They will be updated during the semester, so pulling regularly will be necessary
- Git can be installed many ways
  - Windows – from official website: git-scm.com, or through package manager chocolatey or scoop
  - macOS – from official website, or through homebrew (or MacPorts)
  - Linux – through your package manager

USING THE LAB

- Login with myWSU ID and password
  - Code can be written in Visual Studio or any text editor

SETTING UP YOUR OWN ENVIRONMENT

WRITING CODE ON YOUR COMPUTER

- Setting your computer up to code on your own is not required
  - The lab is open if the building is open
- // Details of compiler version and command that will be used for grading

KNOWLEDGE PROBE
